Report Radford 05-05-2017 BG.docx

Libby,

Here's a revised version. We've also changed this version to reflect comments by the sponsor of the work, so there may be quite a few changes. Maybe an additional table or column in a table as well as the expression of the emission factor units. Let me know if you have any questions.

Thank you!

Brian

I'm going to let you look over the comments and clarify discrepancies I'm seeing in the data in tables and appendices. Once we get the data matching up I can approve with minor revisions. Let me know if you have any questions. Thanks!
